Terraces
Total 4,732 sq ft/439 sq m

Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerine of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the
interior airspace between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is 2,321 sq $f$. Note that measurements of rooms set forth on this floor plan are generally taken at the interior airspace between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is 2,321 sa ft. Note that measurements of rooms set forth on this floor plan are generally taken at the
greatest points of each given room (as if the rooms were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual rooms will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with
actual construction. The rooms illustrated in the floor plans depicted in this brochure are not drawn to scale. All floor plans and development plans are subject to change.
